

# GET TO KNOW ST. MATTHEW'S APP

As you may have seen in our recent announcements, we have launched the St. Matthew's app for both Apple and Android devices. You can still visit our website but if you prefer, you can get Church news, fill out the weekly friendship register, enter prayer requests, and give online right from your phone or tablet.

The **Profile** menu in the upper right corner

provides a way to update contact information and view your past contributions under "My Giving". Enter your phone number to login.

The **Home** menu will display upcoming

church events. You can select an event for more information and share it with others.

The **Connect** menu lists multiple

ways to get connected with St. Matthew's. Here you will find:

- Worship Schedules
- Worship Videos
- Member Check-in (replacing blue cards)
- Prayer Requests
- Personal Member Ministry Information

The **Give** menu allows you to give

your gifts to the Lord using our mobile system. You can make one-time gifts or setup / edit recurring gifts.

The **Events** menu displays all future

calendar events for church, school, and school athletic events. Selecting an event allows you to save it right to your personal calendar.

The **Info** menu provides additional

resources about our Church, School, and First Steps. Resources include:

- Pastor, church, school staff and ministry information
- Tuition payment link for school parents
- First Steps early childhood information
