Cardinal Connection

Student-Led P-T Conferences

Second quarter parent-teacher conferences are set to take place on the afternoons and evenings of **January 21-23**. Here's the scheduling link: [January P-T Conferences](#). Once again we will offer free child care through First Steps, but you'll need to contact Mrs. [Amber Terry](#) to make a reservation. Include the ages and times in your email to her.

Tutoring Resource

Mrs. Shirleen Maertz is a WELS educator who lives in Hartland. She recently retired from the teaching ministry and is offering her services as a tutor. [This flyer](#) can give you some basic information, and if you're interested in more details you read [her resume](#). Her contact information is included on both documents.

Geography Bee

And the winner is...8th grader Reyna Rupnow. Reyna edged out 5th grader Dominic Hall in the Championship Round. Reyna will now attempt to qualify for the State Bee by taking a written test.

New Bible Study Opportunity

A new Bible Information Class is set to begin between services on **Sunday, January 20**. This discussion oriented course will cover the basic teachings of the Bible, and it is designed especially for people who are new to Christianity. If you have any questions, or if you want to register, contact [Pastor Pagels](#).

"The Wizard of Oz" April 26 & 27

We're excited to welcome representatives from [Prairie Fire Children's Theatre](#) to our school in late April as they work with our students to put on a musical version of the Wizard of Oz. See this [Musical Flyer](#) for more information.

Cardinal Clubs

We had a great response to the Art Club survey! Look for specific information and registration in next week's newsletter. Also, just a reminder that there is no Robotics this week.

Box Top Contest Drive

Our next Box Tops for Education drive starts now and continues through January 29. Check out the [Box Tops Flyer](#) and one of two box top collection sheets: [25 Box Tops](#) or [50 Box Tops](#).

Benefits of Playing an Instrument

One of astounding aspects of learning and brain development has to do with the benefits that go along with playing a musical instrument. Take a few minutes to watch this [TEDEd video](#) that explains it pretty clearly.

New Mission Project

Our third quarter mission project, chosen by the students in the fall, is the [Central African Medical Mission](#) (CAMM).

Open Gym 7:00-9:00 pm

Singing Next in Church

Feb 3	K-8 (A-L)	8:00
Feb 3	K-8 (M-Z)	10:30

The vision of St. Matthew's Lutheran School is to nurture students and their families by providing a high-quality Christ-centered education, as well as spiritual growth opportunities and encouragement; and to serve as a strong outreach arm for our congregation.

B team boys took 3rd place at the Pardeeville tournament yesterday!
